SEELEY 
INTERNATIONAL

Natural ducted gas heating,
**the ultimate in safety, reliability
and energy efficiency**

AUSTRALIAN
MADE & OWNED 

“Seeley International never stops striving to innovate and build the world’s most energy efficient heaters and air conditioners.

Braemar has just taken safety, reliability and energy efficiency to a brand new multi-million dollar level!

It is this commitment to excellence that’s at the heart of everything we do.”

Frank Seeley AM FAICD
Founder and Executive Chairman

The ultimate in energy efficient, natural ducted gas heating

QUALITY

Uncompromised product quality and reliability
50 year history

AUSTRALIAN MADE AND OWNED

Completely designed and manufactured in Albury, NSW
Australian owned family company

COST EFFECTIVE

Cheaper to run when compared to reverse cycle heating
Flexible zoning options – save even more on running costs

WARRANTY

7 year comprehensive warranty**
10 year heat exchanger and burner warranty

ENERGY EFFICIENT

Exceeds the Australian standard with the world's first and only, 7 star equivalent* ducted gas heating range
High star ratings in every category

ENVIRONMENT

Low CO₂ emissions

Award Winning Company

Seeley International consistently wins awards each year for new product design, innovation and the environment.

Recent awards include:

**The 7 year comprehensive warranty is available exclusively (i.e. only) if the product is purchased from Seeley International participating dealers. If it is not, then the warranty period, when the product is used for personal, residential household purposes, is 5 years. In commercial applications (when the product is used for keeping people warm), the warranty period is 5 years, and it is 1 year for non-domestic heating applications. The warranty has terms and conditions, including the requirement for regular servicing of the product in accordance with the owner's manual. In the fourth year the service must be performed by Seeley International or its appointed nominee.
*Star rating equivalent. Based on Australian Gas Association's results calculated in accordance with the testing methodology in AS/NZS5263.1.6:2016.

Star ratings explained

ENERGY EFFICIENCY MADE EASY

In Australia, there is an Energy Rating Labelling scheme to help customers choose energy efficient appliances

MORE STARS, MORE SAVINGS^o

The higher the number of stars on the rating label, the more efficient the appliance, meaning greater annual savings on your running costs

ONE STAR, 10% SAVING^o

On average an increase of one star means an average usage saving of approximately 10%

HIGHEST STAR RATING

The Australian Standard states a maximum of 6 stars for Ducted Gas Heaters, however, Braemar has heaters that are more efficient than the maximum!

7 STAR EQUIVALENT* EXPLAINED

Using the Australian Standard system, the Australian Gas Association (AGA) report calculates that Braemar has a 7 star equivalent ducted gas heater

INDEPENDENTLY TESTED

All Braemar ducted gas heaters have been independently tested in an AGA Nata accredited testing laboratory

Save with a higher star rating

Installing a Braemar 7 star equivalent* ducted gas heater instead of a 3 star ducted gas heater will save approximately \$577 per year in running costs!^o

Savings per year

Compared to a 3 star ducted gas heater

\$ Over a five year period you could **save up to \$2,885** on your heating costs with 7 star equivalent ducted gas heating.^o
Achieve even higher savings by adding zone control to your heating system.

Ducted gas heating vs reverse cycle heating

With energy prices rising, ducted gas heating has the edge on reverse cycle when it comes to both efficiency and performance, and even more so now with the world's first 7 star equivalent ducted gas heating range from Braemar.

COST EFFECTIVE

Save up to \$534 per year when compared to reverse cycle[^]

BETTER PERFORMANCE

Reverse cycle works less efficiently when outside temperature drops. Ducted gas efficiency remains steady.

INSTANT WARMTH

Ducted gas reaches desired temperature much faster than reverse cycle.

COMFORTABLE AIR

Ducted gas heating won't dry your skin and eyes. It's a different kind of cosy warmth.

^oStar rating equivalent. Based on Australian Gas Association's results calculated in accordance with the testing methodology in AS/NZS5263.1.6:2016.
^oData is based on: Gas price = 1.6 c/MJ • House Size – 240 m² x 2.4 m ceiling height • Operation hours per year • 600 hrs (100 days at 6 hrs per day) – based on AS/NZS5263.1.6:2016 House Heat load – 0.2 MJ/h/m³ – based on AS/NZS5263.1.6:2016 • Annual Energy Consumption (AEC) for different star rated heaters based on AS/NZS5263.1.6:2016 • 3.0, 4.0, 5.0, 6.0, 6.8 and 7 star equivalent rated ducted gas heating systems. Note: These figures may vary for individual situations due to variation in factors such as gas price, house size and insulation, heater usage patterns, the area heated, how long you run the heating for, your thermostat settings, how well insulated the house is, your local climate etc.

[^]Seeley International's calculation, using publicly available data, adjusted to the Braemar 7 star equivalent ducted gas heater, compared to a standard efficiency electric reverse cycle ducted air conditioning system, for a heated area of 250 m². Based on 900 hours running per year. Peak electricity tariff – 27.7 c/kWh. Off-peak electricity tariff – 16.6 c/kWh. Marginal natural gas tariff – 1.50 c/MJ for ducted gas heating. Actual costs for your house will depend on the area heated, how long you run the heating for, your thermostat settings, how well insulated the house is, your energy tariffs and your local climate.

Innovative MAGIQTOUCH® controller

Touch screen technology

Smart, sophisticated and incredibly intuitive, your MagIQtouch controller makes operating your Braemar so simple. Discreet and modern design will blend seamlessly into the décor of your home.

Standard with: 4 star, 5 star, 6 star, and 7 star equivalent* ducted gas heating.

Optional upgrade: 3 star ducted gas heating.

Touch screen

Easy to use intuitive touch screen control.

Heat with one touch

With one simple touch, turn your heater on or off.

Zone your home

Switch between zones in your home and control the heating settings in each zone. Save on running costs by switching zones off.^o

Zoning is an optional extra

Target Temperature

Displays the temperature you want to reach.

Switch to Cooling

Quickly switch to cooling (if applicable). Display turns blue when cooling and red when heating.

Current Temperature

Quickly and easily view the current temperature inside the home.

Temperature Control

Tap the minus to reduce target temperature or plus to increase target temperature.

Wake up

Press to wake the controller from sleep, only lighting up the screen when in use.

Settings

Access features such as child lock, night quiet mode^o and servicing information.

Program Mode

Tap to change your 7 day program with 4 simple time periods (including a temporary over-ride function).

Zone your home with three zoning options[†]

Save up to an extra
60% on running costs
with zone control[#]

COMPLETE CONTROL

Complete control over individual comfort needs

FLEXIBILITY

Flexibility to heat only parts of the house in use.

SAVINGS

Heat only the zones you are in and save.

Standard zoning

Controlled from:
1 x MagIQtouch controller
in common zone

- Set **one temperature** for all zones
- Ability to turn zones on and off

Central control zoning

Controlled from:
1 x MagIQtouch controller
in common zone

- Set **different temperatures** for each zone
- Additional discreet MagIQtouch Air Sensors located in each zone
- Ability to turn zones on and off
- Option for up to 10 different zones

Complete comfort zoning

Controlled from:
Up to 10 x MagIQtouch controllers
(1 x per zone)

- Set **different temperatures** for each zone from a dedicated MagIQtouch controller in each zone
- MagIQtouch Zone controllers come with in-built air sensors
- Ability to control whole system from a central MagIQtouch controller
- Set independent programs for each zone from central controller
- Option for up to 10 different zones

1 x Main MagIQtouch controller

MagIQtouch
ZONE controller
(1 per zone)

[†]Zoning is an optional extra. TQ3 and TQD3 models: zoning is not available.
[#]Actual savings achieved will depend on the number of zones and controls installed, actual zone usage pattern, temperature settings, outside temperature, house size and room layout, house insulation, number of outlets, zone system design. Zoning savings are based on: • A range of assumed zone configurations, usage profiles and zone set-temperatures, with energy consumption reduced due to not heating the whole house all of the time. • Individual zone temperature control (a single MagIQtouch controller in combination with air temperature sensors, or multiple MagIQtouch controllers).

Braemar ducted gas heating

Features and benefits

Maximum efficiency with the InShot Burner™

- Thorough air/gas mixing for clean, efficient combustion.

No pilot light ensures the heater works everytime

- Electronic ignition ensures dependable ignition
- No standing pilot ensures no wasted gas when the heater is not being used.

Whisper quiet operation with variable speed combustion fan

- Combustion fan safely expels all combustion gases outside.

Use less energy with heater output modulation

- The Modulating Gas Control in conjunction with the micro-processor controlled burner, efficiently burns the right amount of gas for any given situation. It can burn from 100% gas rate all the way down to 6% gas rate on our 7 star equivalent* heater range when zoned.#

Australian Gas Association (AGA) tested and certified

- Multi level safety controls standard on all of our ducted gas heaters
- Integrated control system monitors all heater, flame sensor and safety functions.

Flexible installation for all types of homes

- Unit can be safely installed in the roof, under the floor or outside the house[◊]
- Ducts can be installed in the ceiling or under the floor
- Two-piece configuration means easy installation.

Maximum energy efficiency with Ecostar® Tri-Action™ heat exchanger

- Standard on TQM6 and TQS7 series ducted gas heaters
- Corrosion resistant
- Maximum heat transfer in minimum space.

Use less electricity with an Inverter motor

- Australia's **first and only** inverter motor for ducted gas heating, available on the 7 star equivalent* range only
- Designed to distribute warm air via ducts quickly, effectively and discreetly
- Save on running costs.

No cold drafts with Softair™ fan system

- Exclusive to Braemar
- Delivers continuous warm air.

7 star equivalent* range

The world's most energy efficient conventional ducted gas heaters!

Boasting Australia's first and only inverter motor for ducted gas heating, Braemar's 7 star equivalent ducted gas heaters have the lowest running costs – by far!

WORLD FIRST

Braemar delivers the world's first 7 star equivalent ducted gas heaters

INVERTER MOTOR

Australia's first and only inverter motor for ducted gas heating

COST EFFECTIVE

Most energy efficient on the market making it cheaper to run compared to reverse cycle

Ecostar® 7 star 7.0 star equivalent*

- Engineered for ultimate efficiency
- Suitable for internal installations
- MagIQtouch® controller
- Zoned-heating capable

Heat and cool with one controller

Braemar Refrigerated Cooling

Carefully designed to optimise comfort and energy efficiency when used with specified Braemar ducted gas heater models.

ADD-ON DESIGN

Designed to fit your ducted gas heating system^o using the same ductwork and grilles.

ENERGY EFFICIENT

Invertair[®] Series, Australia's first and only TRUE inverter add-on cooling.

LARGEST CAPACITY

The nation's largest cooling capacity with SACC fixed speed series.

EASY INSTALLATION

No need for new duct work.

YEAR-ROUND COMFORT

All controlled from your MagiQtouch controller

ZONING

Complete control for individual comfort needs.

Heat and cool with one controller*

Braemar Evaporative Air Conditioning

FRESH COMFORTABLE AIR

A totally natural form of cooling that delivers 100% fresh air into your home.

ENERGY EFFICIENT

Evaporative cooling is the most energy and cost efficient way to cool your whole home.

LOW RUNNING COSTS

Consumes less power than refrigerated systems.

SUPER WHISPER QUIET

State of the art components like the Stealth[®] fan make Braemar super quiet to run.

BUILT TO LAST

Permatuf[®] polymer cabinet is designed to withstand the harshest climates.

POWERFUL WHOLE OF HOME COOLING INDOORS

Cool your entire home and enjoy alfresco living.

*Also compatible with Breezair evaporate air conditioning - view the Breezair brochure to find out more.

[#]Note: Care must be taken to ensure that the AOC coil maximum airflow is not exceeded. This can be done by setting the ducted gas heater maximum airflow during the commissioning and set up stage. Please refer to the TQ model Installation Manual. All previous XA heaters, having the appropriate airflow may also be suitable to the above Invertair and AOC models. Please consult your dealer for further clarification. [^]Capacity and AEER is estimated using HPRate™ Version 5 simulation software. ^oApplicable to installations where airflow requirements and duct design are suitable. Not all models of Braemar ducted gas heaters are suitable for add-on cooling, so please check with your dealer.

Peace of mind with our specialist dealer network

Members[^] of Climate Masters of Seeley International are heating and cooling experts, and provide a level of premium service you won't get anywhere else.

[^]Members are independent retailers.

Unsurpassed professionalism and expertise

Unrivalled quality service

Aftercare that really delivers

Reliability

Exclusive Supernova[™] range

Comprehensive warranty

Every single Braemar ducted gas heating unit is made from premium grade materials and supported by a comprehensive factory-backed warranty.

Our industry standard 7 year comprehensive warranty^{**} for residential ducted gas heating also comes with a 10 year heat exchanger and burner warranty.

While our engineering and quality control procedures mean we don't think you'll ever need to use it, our warranty is there for your protection and peace of mind.

Register your warranty and go into the draw to win \$500 worth of prizes[^]

Prize includes 2 free services (up to the value of \$400) and a \$100 eftpos gift card

All you need is your Home Owners' Manual then:

- Go to seeleyinternational.com and click on Get Support at the top of the page
- Choose which brand product you would like to register
- Or
- Scan the QR code on the back page of the Home Owner's manual with a smart phone or tablet

[^]Terms and conditions apply. See braemar.com.au for more information, including the dates of the promotion.

IMPORTANT

Remember to always use qualified, licensed installers who have been trained to install Braemar products. While Seeley International stands by its product quality, a poorly installed product may not operate properly and can even be dangerous. So be sure to buy your product from a reputable dealer (visit climatemastersofsi.com.au or call **1300 136 515** to find a dealer) and make sure your installer is fully qualified and trained.

^{**}The 7 year comprehensive warranty is available exclusively (i.e. only) if the product is purchased from Seeley International participating dealers. If it is not, then the warranty period, when the product is used for personal, residential household purposes, is 5 years. In commercial applications (when the product is used for keeping people warm), the warranty period is 5 years, and it is 1 year for non-domestic heating applications. The warranty has terms and conditions, including the requirement for regular servicing of the product in accordance with the owner's manual. In the fourth year the service must be performed by Seeley International or its appointed nominee.
